

Inclusive Budgeting and Financing for Climate Change in Africa (IBFCCA)

Program: Opportunities to Coordinate the Integration of Gender and Climate Change into Budgeting and Finance

Virtual Peer Learning and Exchange Event

29-30 June 2021

Gender responsive budgeting (GRB) is well established with over two decades of experience with related reforms. Climate responsive budgeting (CRB) is relatively new and the two have largely been pursued independently. However, similarities and complementarity between them have led to calls for the 'double mainstreaming' of both gender and climate change. Gender considerations have increasingly become a requirement when accessing international climate finance. The two day virtual event will provide a platform for officials from across Africa to share their experience on the actions and methods used to implement gender responsive budgeting and/or gender responsive climate budgeting. Related actions span the entire budget cycle. Opportunities will be explored to further coordinate the integration of gender and climate change into public financial management systems.

Pretoria/ Harare time	Tuesday 29 June 2021
09:45-10:00	Audio and visual testing
10:00-10:05	Guidelines for engagement video
10:05-10:20	Welcome address by, Philipp Krause, Head of Technical, CABRI Opening remarks by, Anna Tjarvar, Programme Manager Environment, Climate Change, Renewable Energy, Embassy of Sweden
10:20-10:30	Why gender and climate change Perspectives from, Dr Zainab Ahmed, Honourable Minister of Finance, Budget and National Planning in Nigeria (tbc)

<p>10:30-11:05</p>	<p>Session 1: International frameworks and financing for gender and climate change</p> <p>The session provides an overview of the international frameworks supporting the integration of gender and climate change into national policy, planning, budgeting and finance. In particular, we look at the SDGs and the UNFCCC instruments, including NDCs, NAPs, and NCs. The session in addition covers the inclusion of gender in international climate finance, an area that has received substantial attention in recent years.</p> <p>Presentations include:</p> <ul style="list-style-type: none"> - Overview of the international framework for integrating gender and climate change into planning, budgeting and financing by, Tara Daniel, Women’s Environment and Development Organisation (WEDO) - Liberia: Linking the international to the national level by, Josephine F Doles, Gender Coordinator, Environmental Protection Agency, Liberia - Burkina Faso: Gender responsive reforms by, Ouedraogo Daouda, Directorate of Budget Reforms, Ministry of Economy, Finance and Development, Burkina Faso <p>Discussant: Carina Sugden, Chief Governance Officer, African Development Bank</p> <p>Facilitator: Tracy Kajumba, IIED</p>
